An Introduction To Content Analysis

An Introduction to Content Analysis Content analysis is a research tool used to determine the presence of certain words or concepts within texts or sets of texts.

An Introduction to Content Analysis

An Introduction to Content Analysis Content analysis is a research tool used to determine the presence of certain words or concepts within texts or sets of texts. Researchers quantify and analyze the presence, meanings and relationships of such words and concepts, then make inferences about the messages within the texts, the writer(s), the audience, and even the culture and time of which these are a part.
