The Z5 is Nikon's cheapest full-frame mirrorless camera, making it perfect for this list, though whether you consider it a bargain or not will depend on which territory you're in. In the UK, for example, there is no body only option and it's sold only with a 24-50mm kit lens you will probably want to replace quite soon.

The cheapest full frame cameras in 2021 | Digital Camera World

For a while the cheapest full frame camera IN THE WORLD was the original Sony A7. That's getting harder to find now, but its place has been taken by the A7 Mark II. The chief difference between them is that the Mark II version has in-body stabilisation, but for many users that alone will be enough to justify the higher price.
