Example 1. BACKGROUND: Detailed information regarding the work history of heart transplant patients is limited. Therefore, the work history and factors associated with return to work at 1 year after heart transplantation were examined in 237 heart transplant patients as part of a longitudinal quality-of-life study at two university medical centers.

Writing Abstracts - Center for Nursing Excellence ...

This wasn't a tremendously consequential play. If the run had scored, the Brewers would have trialed by three, and they managed a whopping two hits the rest of the way, so they were hardly tearing the cover off the ball. It would be easy to gloss over it, to think "good outfielder got slow runner" and move on with your life.
