The European Union is a geo-political entity covering a large portion of the European continent. It is founded upon numerous treaties and has undergone expansions and secessions that have taken it from 6 member states to 27, a majority of the states in Europe. Apart from the ideas of federation, confederation, or customs union such as Winston Churchill's 1946 call for a "United States of Europe", the original development of the European Union was based on a supranational foundation that would "m
